

Food Ambassadors Feedback

Food Ambassadors Feedback-Local Networks

- Good partnership working on a day to day basis
- Some ambassadors unsure of who the other ambassadors are in their LA.
- Some unsure of ambassadors role- needs to be more specific
- Generally working well although time pressures for partners such as head teachers with clinical duties make commitments difficult.

Ambassador Events- Feedback

- Useful opportunity to network within each LA and gain good practice.
- Good opportunity to plan and co-ordinate local work
- Ambassadors need to be given more notice for events in order to prepare examples of good practice and bring required information.
- Would be useful to hear more about other people's initiatives and experiences – share good practice and discuss overcoming difficulties.
- The workshops may be more useful if they were more structured and sufficient time was allowed to complete the tasks, feedback and share with the group.
- More icebreakers / group bonding
- Great way to share ideas and help each other

Regional Improvements

- Need more information of activities in other LA e.g children centre training.
- General updates to be sent directly to strategic people with each LA.
- 3 meetings a year would be good.
- A copy of attendees with contact numbers would be brilliant so we can contact each other.
